If you don't have a ring that fits, or the ring is a gift for someone else you can use our printable ring sizer below to get an estimated measurement.

When using the paper ring sizer simply

Cut out the slot marked at the end of the sizer - near the snake's tail

Wrap it around the base of your finger and slide the snake's head through the slot

Gently pull until you have a secured fit

Check the letter displayed for your ring size

Print this page at A4 size and cut out the ring sizer, including the slit to feed the snake's head through
